What is Community Supported Agriculture (CSA)?

At their most fundamental level, CSA farms provide a weekly delivery of sustainably grown produce to consumers during the growing season (approximately June to October). Those consumers, in turn, pay a membership fee.

How Do I Sign Up?

Go online to www.SmolakFarms.com to download the application or fill out the attached form and mail in with a check made out to Smolak Farms.

When And Where Do I Pick Up The Produce?

Pick up days for your CSA will be assigned. There will be 25 shares available for a Wednesday pick up and 25 shares available for a Thursday pick up. All produce will be freshly picked, washed and boxed the day of pick up. All pick-ups will be at Smolak Farms in North Andover, MA.

How Much Does It Cost & Can I Share A Share?

Vegetable/Fruit CSA* - Full, 18-week share is \$540 for the season. Half shares are available for \$295.00.

PYO Fruit CSA* - Full share - \$350 for the season. Half shares are available for \$195.00

You can share with friends and trade pick-ups or share with someone for just the summer if you go away on vacation. You will receive a membership card at time of sign up. The card must be shown at time of pick up.

** A Full Share CSA should be enough to feed 4 people, a Half Share should feed 2 with normal size servings. Please note that Mother Nature dictates when all crops are ready so we cannot guarantee quantities by specific dates.*

315 South Bradford St.

North Andover, MA 01845

You will receive a membership card with instructions for the CSA by the end of May. Pick up days are assigned on a first come, first serve basis.

What Is The Season?

Our 18-week season runs mid-June through mid-October. The fruits and vegetables that we pack into your box each week will vary with the rhythms of the growing season. This means that in the early boxes you might see strawberries, varieties of lettuce and scallions. The heat of the summer will bring along garden favorites like tomatoes, basil, parsley, peppers, eggplant, green beans, summer squash, raspberries, blueberries and more. As we wind into fall, look for different varieties of winter squash, carrots and, of course, apples!

We Have Two CSA Options To Choose From.

The 18-Week **Vegetable/Fruit CSA** will begin June 20 and run through October 18. The combination of fruits and vegetables will be picked, washed and packed up for pick up directly at Smolak Farms for a cost of \$540 for a full share and \$295 for a half share. 50 Shares will be available.

The **PYO Fruit CSA** will begin with strawberry season, usually the second week in June, through the apple season, late into the fall. This will be a Pick Your Own CSA for a cost of \$350 for a full share and \$195 for a half share. 50 Shares will be available.
